Whether you're planning a cruise, going fishing, or traveling to a local marina, knowing how to read and use nautical charts is essential to safe boating. Charts include must-have information, including bottom contours, hazards, and aids to navigation, to help you travel safely. An optional waterproof flip-fold *Chart Symbols and On-the-Water Guide* to take along on the boat with you is also available for purchase.

What's included?

- ✓ What charts show navigators above the water surface
- ✓ Chart features
- ✓ Chart scales
- ✓ Aids to navigation
- ✓ What charts show navigators below the water surface
- ✓ Latitude and longitude
- ✓ Planning your course
- ✓ What's in your way

This is a public seminar and USPS/PSPS membership is not required.
