

We've been invited to tour the Inner Banks STEM Center by Alvin Powell Founder & President

Date: June 8, 2023

Time: 1:30 PM

Location: Washington Warren Airport
201 Airport Road, Washington, NC

Their Primary Goal:

Create a sustainable and innovative Science, Technology, Engineering, and Math (STEM) science enrichment program with a focus on reaching at-risk under-represented 5th-9th grade students to help prepare them for 21st century STEM Careers.

This is an amazing program with the advanced technology, obtained from various grants and community support, is truly amazing! The programs hands-on approach compliments the NC school core subjects helping to develop good life-skills and decision making, as well as, improving the relationship between youth, the community, and first responders through a variety of community events.

Please RSVP by June 5th to Liz Wheeler, at administrativeofficer@pspsnc.com or feel free to call her with questions at 301-928-1056.
